SecondLook

A SECOND LOOK BEFORE YOU BUY

Know the cost before you commit.

Buying a used car as is? The asking price is only part of the story. SecondLook connects buyers with a local mechanic over live video to estimate what it could cost to get the car safety certified. The first inspection is fifty dollars; each additional car in the same fourteen-day window is twenty-five. Buyers can add a body shop review, compare options, and know the potential cost before they commit.
